PROFILE

Proactive and driven Cyber Security Enthusiast with a strong foundation in penetration testing, web security, and digital forensics. Skilled in system exploitation, OSINT, networking, and Active Directory environments. Experienced CTF player and aspiring bug bounty hunter with a growing track record of identifying vulnerabilities and proposing mitigation strategies. As an active member of the EHP-batch 07, I engage in continuous hands-on learning, mentoring peers, and sharing knowledge through collaborative platforms. Passionate about self-improvement, secure coding practices, and building resilient digital infrastructures—especially within high-stakes sectors like banking and finance.
